

This week for Thank-You Thursday, we will highlight all the administrative and program staff that keep the UFCOM running! They are the backbone of the college, supporting our educational, research, and clinical missions by organizing, planning, communicating, scheduling, record-keeping, balancing, coordinating, marketing, and so much more. Some staff have been in the office as essential personnel throughout this crisis, some have been working from home. Others have had to limit their work hours and/or use their PTO. Through it all, they've managed to get the job done! While they often toil in the background without receiving a lot of attention, their efforts are crucial to the past, present, and future success of the College of Medicine.

So, please take the time to **reach out to the staff with whom you work, and thank them for all they do!** Make sure that they know that you notice and appreciate their hard work and that you are grateful to work with them. Then enjoy the staff appreciation messages listed below:
